

PROPER USE OF BUYER'S GUIDES

We use only 3 different variations of buyer's guides. These are all available to print in vAuto.

1) AS-IS

- a) Manufacturer's basic bumper to bumper warranty has expired.
- b) The vehicle is not certified.
- c) The vehicle is sold As-Is with no Implied Warranties.
- d) Service Contract is available and checked.

2) Manufacturer's Warranty Still Applies

- a) The vehicle is still covered by the manufacturer's original basic bumper to bumper warranty.
- b) We don't consider powertrain, emissions, corrosion or other assorted coverages for this choice, just the basic warranty.
- c) Implied Warranties is checked.
- d) Service Contract is available and checked.

3) Manufacturers Used Vehicle Warranty Applies

- a) The vehicle is Certified by the manufacturer and includes a Certified Used Vehicle warranty.
- b) Implied Warranties is checked.
- c) Service Contract is available and checked.

For some of our dealerships that have a substantial number of deals transacted utilizing Spanish language the buyer's guides are also available in Spanish.

We do not use the "**Other Used Vehicle Warranty Applies**" choice. This selection is for dealers that offer in house warranties or other non-manufacturer third party warranties.
